Coimbatore, Tamil Nadu (Open to Relocate)

PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in SQL, Python, and Power BI, skilled in data modeling, KPI tracking, and dashboard automation. Demonstrated track record of optimizing reporting workflows by 40%, automating risk flagging across 5,000+ records, and transforming complex datasets into actionable business decisions.

TECHNICAL SKILLS

Languages & Querying: SQL, Python (Pandas, NumPy)

BI & Visualization: Power BI (DAX, Power Query), Tableau, Advanced MS Excel (Pivot Tables, XLOOKUP)

Analytical Competencies: Data Cleaning, Exploratory Data Analysis (EDA), Data Modeling (Star Schema), Descriptive Statistics

EXPERIENCE

Data Analyst Intern

Oct 2025 – Apr 2026

Ai Variant

Remote

- Analyzed 54,771 sales transactions across 17,935 customers and 606 products to track revenue, order volume, unit economics, and profit margin KPIs.
- Automated recurring regional and product reporting workflows in Excel using XLOOKUP, calculated fields, and dynamic Pivot Tables, reducing manual reporting cycles.
- Partnered with a 5-person analytics team to define, validate, and standardize 6 core commercial KPIs across all operational regions.

PROJECTS

Insurance Data Analytics | *SQL, Power BI, Data Modeling*

Mar 2026 – Apr 2026

- Extracted and analyzed 5,000 policies across 3,148 customers using complex SQL joins, CTEs, and window functions across 4 relational tables to aggregate policyholder cohorts.
- Flagged 134 high-risk policies expiring in 2026 through date-range filtering, isolating concentration risk within Property coverage.
- Quantified INR 251M+ in total claims and tracked annual premium trends to identify key inflection points in portfolio growth.
- Designed an interactive 15-visual Power BI dashboard displaying policyholder demographics, claim frequency, and regional distribution.

Movie Industry Data Analysis | *Python, Pandas, Matplotlib, Seaborn*

May 2026 – Aug 2026

- Conducted end-to-end exploratory data analysis on movie industry datasets, performing data cleaning, duplicate checks, and missing-value treatment.
- Evaluated correlation across numerical and categorical features, identifying budget (0.74) and audience votes (0.61) as primary revenue drivers.
- Developed regression plots and correlation heatmaps to visualize complex feature relationships and extract key business patterns.

CERTIFICATIONS

Data Analyst Certificate (Cohort 3) | IIT Jammu (2026) – Statistical inference, regression, ML fundamentals

Certificate of Excellence in Data Analytics | ExcelR (2026) – Distinction in SQL, Python, Excel, Power BI coursework

FutureSkills Prime Assessment | NASSCOM (2026) – MeitY-aligned certification in SQL, Power BI, Tableau

EDUCATION

S.N.S College of Engineering

Bachelor of Engineering in Computer Science and Technology (CGPA: 7.3/10)

Coimbatore, India

Graduated 2025
